TECHNICAL SKILLS

AI & AGENTS

OpenAI Agents SDK CrewAI
LangChain MCP Servers RAG
LiteLLM Gemini Claude Groq
Pinecone

ML & DATA

TensorFlow PyTorch scikit-learn
Pandas NumPy OpenCV NLP

BACKEND & FRONTEND

Python FastAPI Django
TypeScript Next.js React
PostgreSQL MongoDB

TOOLING

Docker Git GitHub Actions
Vercel Streamlit Chainlit n8n

LANGUAGES

English Professional
Urdu Native

PROFESSIONAL SUMMARY

Agentic AI Engineer who ships AI that runs in production — not demos. I design autonomous **multi-agent architectures**, **RAG pipelines** over private documents, and **MCP servers** that expose internal systems as first-class agent tools. I work end to end: agent orchestration, FastAPI backends, Next.js frontends, and deployment.

PROFESSIONAL EXPERIENCE

Lead AI Engineer — WeboTech Studio ↗

Sep 2025 – Present

- Lead the AI and automation division — ML models, AI agents, chatbots, and custom integrations that streamline client operations.
- Architect and ship agent systems and conversational assistants across client projects.

Agentic AI Engineer — Semantechs

Jan 2026 – Present

- Design and deploy agentic AI systems for enterprise clients — multi-agent orchestration, planner/executor patterns, and reliable tool use.
- Build MCP servers that connect internal business systems directly to LLM agents.

Senior Software Engineer — 7Star Laptop Battery Station

Jan 2026 – Present

- Engineered the complete POS suite powering daily retail operations — sales, stock, and reporting.
- Built warehouse stock applications and the 7starbattery.pk e-commerce platform.

SaaS Application Developer — OptifyServe, Dubai UAE

Feb – Jun 2026

- Full-stack development of a UAE-based business optimization and automation SaaS platform.
- Stack: Next.js, TypeScript, Python FastAPI, PostgreSQL — from schema design to deployment.

AI Engineer Intern — Innovidio

Mar – Jul 2025

SELECTED PROJECTS

Islamic Inheritance MCP Server

[View Repository →](#)

FastMCP server exposing a `calculate_inheritance` tool — Hanafi cash/land shares to fractional Marla, output as a PDF report.

Python · FastMCP · ReportLab

Weather Agent — Chainlit & OpenAI Agents SDK

[View Repository →](#)

Conversational agent calling a live weather API via function calling, served through a streaming Chainlit UI.

Python · OpenAI Agents SDK · Chainlit · Gemini

Market Trends Analyst Agent

[View Repository →](#)

Multi-agent CrewAI system that gathers market data and produces an analyst-style trend report.

Python · CrewAI · Data Analysis

Document Query Assistant (RAG)

[View Repository →](#)

Upload documents, ask questions, get grounded answers with citations via GroundX + Gemini.

Python · Gemini · GroundX · Streamlit

EDUCATION

MS Data Science (in progress)

2026 – Present

The Islamia University of Bahawalpur

BS (ADP) Artificial Intelligence

2022 – 2024

The Islamia University of Bahawalpur — CGPA 3.48 / 4.00

BCS, Computer Science

2019 – 2022

Govt. Degree College, Dunyapur
