PROFESSIONAL SUMMARY

Agentic AI Engineer who ships AI that runs in production. I design multi-agent systems, RAG pipelines over private documents, and MCP servers that expose business systems to LLM agents, and I build the FastAPI and Next.js applications around them. Currently leading the AI division at WeboTech Studio; 5 verified Panaversity/PIAIC AI exams (74% average); pursuing an MS in Data Science.

CORE SKILLS

AI & Agents	OpenAI Agents SDK, CrewAI, LangChain, MCP Servers, RAG, LiteLLM, Gemini, Claude, Groq, Pinecone, Prompt & Context Engineering
ML & Data	TensorFlow, PyTorch, scikit-learn, Pandas, NumPy, OpenCV, NLP
Backend & Frontend	Python, FastAPI, Django, TypeScript, Next.js, React, PostgreSQL, MongoDB
Tooling	Docker, Git, GitHub Actions, Vercel, Streamlit, Chainlit, n8n
Languages	English (professional), Urdu (native)

PROFESSIONAL EXPERIENCE

Lead AI Engineer — WeboTech Studio Sep 2025 – Present

- Lead the AI and automation division: ML models, AI agents, chatbots and custom integrations for client operations.
- Architect and ship agent systems and conversational assistants across client projects.

Agentic AI Engineer — Semantechs Jan 2026 – Present

- Design and deploy agentic systems for enterprise clients: multi-agent orchestration, planner/executor patterns, reliable tool use.
- Build MCP servers that connect internal business systems directly to LLM agents.

Senior Software Engineer — 7Star Laptop Battery Station Jan 2026 – Sep 2026

- Engineered the POS suite used in daily retail operations: sales, stock and reporting.
- Built warehouse stock applications and the 7starbattery.pk e-commerce platform.

SaaS Application Developer — OptifyServe, Dubai, UAE Feb 2026 – Jun 2026

- Full-stack development of a UAE-based business optimization and automation SaaS platform (Next.js, TypeScript, FastAPI, PostgreSQL), from schema design to deployment.

AI Engineer Intern — Innovidio Mar 2025 – Jul 2025

- Contributed to agentic AI automation systems and the Qyra AI research platform.

SELECTED PROJECTS

Islamic Inheritance MCP Server (Python, FastMCP, ReportLab) — MCP server exposing a *calculate_inheritance* tool; outputs Hanafi cash and land shares (down to fractional Marla) as a PDF report.

Document Query Assistant (RAG) (Python, Gemini, GroundX, Streamlit) — upload documents, ask questions, get grounded answers with citations.

Market Trends Analyst Agent (Python, CrewAI) — multi-agent system that gathers market data and writes an analyst-style trend report.

Weather Agent (OpenAI Agents SDK, Chainlit, Gemini) — conversational agent using function calling against a live weather API, with a streaming UI.

Hospital AI Assistant (Python, FastAPI, OpenAI Agents SDK) — SaaS-based organizational “brain” that automates hospital workflows with AI agents.

EDUCATION

MS Data Science (in progress) — The Islamia University of Bahawalpur 2026 – Present
BS (ADP) Artificial Intelligence — The Islamia University of Bahawalpur, CGPA 3.48/4.00 2022 – 2024
BCS, Computer Science — Govt. Degree College, Dunyapur 2019 – 2022

CERTIFICATIONS — verify at panaversity.org/p/muneeriqbal729-lf7k

- Agent Factory Fundamentals: Building Digital FTEs — Panaversity/PIAIC, Feb 2026 (78%)
- Model Context Protocol (MCP) Level 2 — Panaversity/PIAIC, Nov 2025 (73%)
- Prompt & Context Engineering — Panaversity/PIAIC, Sep 2025 (73%)
- Level 2 Fundamentals of Agentic AI Professional — Panaversity/PIAIC, Jul 2025 (70%)
- Fundamentals of Agentic AI — Panaversity/PIAIC, Jun 2025 (78%)
- Certified Cloud Applied Generative AI Engineer — PIAIC, Jul 2024 – Dec 2025
